AMERICAN KILLED

Reports from Nicaragua Affirm Reports of Desperate Fighting

MANAGUA, February 24.—It is unofficially reported that Captain Godfrey Fowler, formerly of the United States army, who commanded Chamorro's artillery in the engagement at Tama Tuesday, has died of his wounds. A large number of wounded from both sides have been brought here. Some confirm the reports of a desperate attempt by the insurgents to force the passage of the Tipitapa bridge. According to these stories, Chamorro, in civilian clothing, succeeded in making his way across the river into Chentales. He was accompanied by a handful of men, who had a hand-to-hand fight with machetas against the government troops.

Largest Religious Organization in World in Session

PHILADELPHIA, February 24.—The Brotherhood of Andrew and Philip, which is the largest interdenominational men's organization within the church in the entire world, began its eight biennial federal convention this afternoon in the Princeton Presbyterian church, this city. "Men's Work for Men" is the general theme of the convention, which will continue in session two days. The program is of the most practical character, every participant being an experienced worker. Tomorrow the conference is expected to discuss and adopt a new constitution for the organization.

The brotherhood was organized in Reading, Pa., in 1888, by Rev. Dr. Rufus W. Miller, of this city, secretary of the board of publication of the Reformed church. Its present membership exceeds 50,000 and represents twenty-five denominations.

PEOPLE'S FORUM

Favors Independent Ticket

Editor Daily Silver Belt, Globe Arizona.
Dear Sir: About two weeks ago I read in the columns of the Silver Belt under the heading "People's Forum," a letter written by "A Democrat," in which he advocates the election of municipal officers in the city of Globe regardless of their party affiliations. His reasons for urging a departure from party politics were that Globe should have a business administration "that would insure to its citizens and taxpayers the greatest possible improvement and advancement for the least possible expenditure of money." These reasons are the best, according to my idea, that could be advanced.

I agree fully with Mr. Democrat; what we want is good, honest, conservative, business men to administer the affairs of our city, and I, for one, would support such candidates, regardless of their party affiliations.

I further agree with Mr. Democrat that the best way to secure honest and efficient city officers is by the nomination of independent candidates, selected by the entire community, and not by a political party. It is an easy matter for the political parties to place two or more candidates in the field, none of whom would be acceptable to the majority of the people. It then remains for the people to choose the lesser of two or more evils. Their only choice is to select one of the candidates nominated by the party. Let us do away with party politics in city government, and let the people who pay the taxes and foot the bills have a direct voice in the selection of its officers, and this, I feel sure, can be accomplished by the independent route.

I heard it rumored upon the street within the last few days that J. D. Coplen was to be a candidate for mayor. I know not whether he is a democrat or republican, but I believe him to be a man who would faithfully and honestly discharge the duties of his office, and guard the interests of the taxpayers of this community. No graft could exist in our city with a man like

J. D. Coplen sitting in the mayor's chair. He would be for economical government and for the advancement of the interests of Globe in every way. An independent ticket composed of candidates of the caliber of J. D. Coplen would undoubtedly receive the support of the great majority of the voters of our city.

I recall that two years ago, when the candidates of the democratic and republican parties for the city officers in Globe were before the people for election, that the Silver Belt took the

position and advocated the election of the best men. I commended the Silver Belt for its action in that campaign, and felt that it was working in the interests of Globe and its citizens, and I feel sure that if the Silver Belt should take the same stand in the coming city election and support the best men for office, that we could elect officers in the city who would give us a business administration such a Globe requires.

Respectfully,
A REPUBLICAN.

WOMEN ON TRIAL—Four women of the underworld, formerly denizens of the old red light district, who were arrested on vagrancy charges as the re-

sult of having taken up quarters just north of the city limits, near the Black Warrior road, were given a partial hearing in Judge Hinson Thomas' court yesterday. Several witnesses for the prosecution were introduced, to show the reputation of the defendants. The women will make their defense today.

LAST OF PAPERS FORWARDED TO BUREAU

Towle Completes Recommendations for Arizona Enumerators

ENTIRE LIST NOW MATTER OF RECORD

Census Supervisor Expects First Papers Returned in Short Time

After three weeks of strenuous work, Census Supervisor F. F. Towle has completed the work of examining test papers of various applicants for positions as census enumerators in Arizona and yesterday he forwarded the last set of papers to the census bureau at Washington, with his recommendations.

In all, Mr. Towle has made recommendations for the appointment of 128 enumerators, who will take the entire census of the territory, with the exception of the Indian census, which work will require probably as many more special agents. As yet none of the recommendations have been ratified, but by the first of next week, Mr. Towle expects to be in receipt of the ratifications of the first recommendations. It will be several weeks before all of the appointments are ratified.

As soon as the various appointments are ratified, the appointees will take the official oath from Mr. Towle or his special agents throughout the territory and they will then be ready to begin work when the census taking commences, on April 15.

"While the work of taking the coming census is specifically explained to the enumerators, the task will be one which will require some clear head work in order to secure the proper information," said Supervisor Towle yesterday. "All answers are to have reference solely to the Census Day, which is April 15. Persons living on that day, but who died after it and before the enumerators call, are to be counted, but persons born after the middle of April are not to be included in the count. Persons who were single on April 15 are to be reported as single, even though they have married subsequently, and before the canvasser has called. This is true, similarly, of persons who have become widowed or divorced after that date.

"The census law provides that all persons shall be enumerated at their 'usual place of abode' on April 15. As a rule, the usual place of abode is not the place where a person works or where he eats, but where he regularly sleeps. Enumerators are cautioned, however, that where a man happens to sleep at the time of the enumeration may not be the place where he regularly sleeps.

"There will be a number of persons having their usual places of abode in enumeration districts who will be absent April 15. These are to be included and enumerated after the facts regarding them have been obtained from their families, relatives, acquaintances or other persons able to give the information. For instance, if a member of any family in an enumeration district
